Important Notes:

1. Price is based on two adults sharing a: standard twin/double-bed hotel room, cruise deluxe cabin, and train sleeping berth. There is a \$450 surcharge if a person would like to occupy a hotel room without sharing. Note: If your height is above 5ft 8in, please inform us so we can request to lower the bunk in your train accommodation.
2. Price is only valid for the above-mentioned travel period.
3. An additional 3.9% processing fee of the total amount is applied when paying by credit card.
4. Health Requirements for High Altitude Travel: Tibet is located at a high altitude, and some travelers may experience symptoms of altitude sickness. All passengers should be in good health and physically fit for high-altitude travel. All passengers will be required to sign a health declaration or liability waiver before the trip.
5. The journey to Tibet is by sleeper train and takes approximately two days. Many guests enjoy this unique experience, especially the beautiful scenery along the way, which is truly spectacular and well worth seeing. However, we would also like to mention in advance that the sleeping berths on the train are relatively compact. Standard train berths in China are approximately 80 cm wide × 190 cm long, so some travelers (particularly those accustomed to more spacious accommodations) may find the sleeping space less comfortable for an extended journey. We simply want to make sure that all our guests are fully informed about the travel arrangements and feel comfortable with them before making their final decision. While the train journey offers a wonderful opportunity to enjoy the breathtaking scenery, we recommend keeping in mind that the sleeping accommodations are quite compact.
